CLEANING & MAINTENANCE

WS: Water/Solvent Cleaner - Spot clean with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding. Always rinse promptly with clean water.

PC: Privacy Curtains Cleaning Info - Wash Cycle: Process Cubicle fabric as any ordinary colored fabric, temperature not to exceed 160F. Use a synthetic detergent. Add softener to the last rinse cycle. Extracting Cycle: Fabric requires no more than 2-4 min. extracting, depending on size of load and equipment used. Drying Cycle: Do not overload dryer. Tumble dry for 3-5 min. on synthetic cycle 110F. As with all polyester fabrics, excessive heat will detract from the permanent press characteristics of this fabric. Finishing: If fabric is folded upon completion of the drying cycle, no finishing is required. Occasional light touch-up with a hand iron (275F max), or using a flat bed press with covered head may be desired for smoother seams. Important: Use cover cloth between fabric and iron or pressing head. Avoid prolonged contact with heat. Notes: Do not use caustic soap or bleach. Do not put through a mangle.

BC: Bleach Cleanable - 1 parts bleach, 9 parts water = 10% bleach, 90% water solution. Do not clean / disinfect fabric for longer than 10 minutes using the 10% bleach solution. Always rinse promptly with clean water after applying the bleach solution. Failure to do so will void any and all warranties.
