**GREENGUARD Gold Certified** products are tested for low chemical emissions to standard UL 2818. For more information, visit [UL.com/gg](http://UL.com/gg).

**REPREVE** Repreve® nylon is made entirely from pre-consumer fiber waste, making it one of the most earth-friendly fabric ingredients you'll find anywhere. The proprietary Repreve process took years to develop and is third party certified for recycled content. The production of Repreve nylon conserves energy and natural resources by offsetting the need to produce virgin nylon fiber, creating a reprieve for the planet. Repreve and It's What's In It are trademarks of Unifi, Inc.
