GREENGUARD Gold Certified products are tested for low chemical emissions to standard UL 2818. For more information, visit UL.com/gg.

Eco-System®

Sustainable. Attainable at Mayer Fabrics.

Repreve® nylon is made entirely from pre-consumer fiber waste, making it one of the most earth-friendly fabric ingredients you'll find anywhere. The proprietary Repreve process took years to develop and is third party certified for recycled content. The production of Repreve nylon conserves energy and natural resources by offsetting the need to produce virgin nylon fiber, creating a reprieve for the planet. Repreve and It's What's In It are trademarks of Unifi, Inc.

CLEANING INFORMATION

S: Solvent Cleaner – Spot clean, using a mild water-free solvent or dry cleaning product. Clean only in a well-ventilated room and avoid any product containing carbon tetrachloride or other toxic materials. Pretest a small area before proceeding.

Bleach Cleanable - 1 part bleach, 4 parts water = 20% bleach, 80% water solution. Always rinse promptly with clean water after applying the bleach solution.

ADDITIONAL INFORMATION

Custom Capabilities: All patterns can be custom colored. Minimum yardage applies.

Memo Samples: Please keep this card intact. Individual memo samples can be ordered on our website or by contacting customer service.

Color Matching: Mayer Fabrics always attempts to ship a satisfactory commercial match. Because of industry standard dye lot variation, colors may not match exactly.

Specifications: Specifications are correct at the time of printing. Current specifications are available on our website.
