SUPERIOR PERFORMANCE

Engineered specifically for the demanding Hospitality, Healthcare, Contract/Office and Education markets:
Exceptional Abrasion Resistance Anti-Bacterial / Anti-Microbial Stain Resistant
Knit Backing for Ease of Upholstery Mildew Resistant Bleach Cleanable
7 year Hydrolysis (Jungle Test) rating - Test is performed by placing material in a sealed chamber at 90° C and 90% humidity.

CLEANING INFORMATION

WS: Water/Solvent Cleaner – Spot clean, with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding.

BC: Bleach Cleanable – 1 part bleach, 4 parts water = 20% bleach, 80% water solution. Always rinse promptly with clean water after applying the bleach solution.

Prompt cleaning is always recommended. Recommended cleaning steps are listed by type of stain.

Regular Cleaning and Maintenance (Dirt, Grime): Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

Food Stains/Oils (Mustard, Ketchup, Chocolate, Coffee/Tea, Salad Dressing): Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, clean with mild soap and water. Rinse with fresh water and wipe dry. For stubborn stains spot clean with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry.

Healthcare/Disinfection (Blood, Urine, Betadine): Wipe the affected area with a soft cloth with appropriate pressure. If some stain persists, spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry. **Disinfection:** This material withstands a 20% solution of household bleach and water. It is important to rinse the clean area with fresh water after applying the bleach solution.

Ink Marks/Graffiti (Ball Point Pen, Permanent Marker): Rub the affected area with a dry soft cloth with firm pressure. If some stain is still present spray it with a 70% dilution of isopropyl alcohol and water and wipe. Rinse with fresh water and wipe dry. Note: Removal of ink, particularly permanent marker, may vary depending on the period of time that the ink sets in. While this material offers excellent protection, full removal is not guaranteed.

Denim Dye Transfer (Blue Jeans): This material is designed to withstand the transfer of most types of indigo dye. In the case that faint dye transfer is visible, this can typically be removed with a 70% dilution of isopropyl alcohol and water. Note: Removal of indigo dye, particularly from wet jeans, may vary depending on the type of denim. While this material offers excellent protection, full removal is not guaranteed.

NOTE: The information in this cleaning guide refers to performance in specific tests conducted under laboratory conditions. This information is not a guarantee that every stain will be removed completely and some residual ghosting may be present after all the cleaning steps are followed.

Results may vary under actual conditions.
This information is not a guarantee and does not relieve the user from the responsibility of the proper and safe use of the product and all cleaning agents. The use of certain agents can be harmful to the surface appearance and lifespan of polyurethane. Mayer Fabrics, its agents, and assigns assume no responsibility resulting from the use of such cleaning agents to the polyurethane surface.
Please check compatibility when using this product in combination with painted or varnished surfaces.
