CLEANING INFORMATION	
BC: Bleach Cleanable – 1 part bleach, 9 parts water = 10% bleach, 90% water solution. Do not clean/disinfect fabric for longer than 10 minutes using the 10% bleach solution. Always rinse promptly with clean water after applying the bleach solution. Failure to do so will void any and all warranties.	
Remove most stains with one of the following steps: Step 1 (baby oil, ketchup, chocolate, motor oil, olive oil, tea, coffee): If cleaned immediately, use a clean dry cotton fabric. Wipe once, careful to remove most of the stain without spreading to surrounding area. Wipe more vigorously a second time if residue remains and proceed to step 2. Step 2 (eye shadow, crayon, grease, permanent felt tip marker, mustard, lipstick, ball point pen): If residue remains use a straight application of Formula 409® or Fantastik® spray cleaner. Wipe with a clean cloth, rinse with clean water and dry. If residue remains, proceed to step 3. Step 3 (eye shadow, crayon, grease, permanent felt tip marker, mustard, lipstick, ball point pen): More stubborn soiling may be eliminated using a cotton fabric soaked in 91% isopropyl (rubbing) alcohol. Wipe without spreading stain to surrounding area. A second application should be applied with vigorous rubbing in a circular motion. For highly textured material, a soft toothbrush is recommended to clean valleys and crevices. Wipe with a clean cloth, rinse with water and dry. Please refer to the Mayer Fabrics website or contact customer service for approval of unlisted cleaning agents prior to use.	
Results are best when cleaned within the first 24 hours of staining. This information is not a guarantee and does not relieve the user from the responsibility of the proper and safe use of the product and all cleaning agents. The use of certain agents can be harmful to the surface appearance and lifespan of vinyl. Mayer Fabrics, its agents and assigns assume no responsibility resulting from the use of such cleaning agents to the vinyl. Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. Formula 409® is a registered trademark of the Clorox Company®, Fantastik® is a trademark of DowBrands, Inc. Trademark of the Dow Chemical Co.* Please check compatibility when using this product in combination with painted or varnished surfaces.
