7 year Hydrolysis (Jungle Test) rating - Test is performed by placing material in a sealed chamber at 90° C and 90% humidity.

CLEANING INFORMATION

WS: Water/Solvent Cleaner – Spot clean, with a mild solvent, an upholstery shampoo, or the foam from a mild detergent. When using a solvent or dry cleaning product, follow instructions carefully and clean only in a well-ventilated room. Avoid any product that contains carbon tetrachloride or other toxic materials. With either method, pretest a small area before proceeding. Always rinse promptly with clean water.

BC: Bleach Cleanable – 1 part bleach, 9 parts water = 10% bleach, 90% water solution. Do not clean/disinfect fabric for longer than 10 minutes using the 10% bleach solution. Always rinse promptly with clean water after applying the bleach solution. Failure to do so will void any and all warranties.

Prompt cleaning is always recommended. Recommended cleaning steps are listed by type of stain.

Regular Cleaning and Maintenance (Dirt, Dust, Grime): Clean the soiled area with mild soap and water, then rinse with fresh water and wipe dry with a clean cloth.

Food Stains/Oils (Ketchup, Chocolate, Coffee, Tea, Juice): Wipe affected area with a soft cloth or soft bristle brush using a non-abrasive cleaner, for example Formula 409® or Fantastik®. Rinse with fresh water and wipe dry.

Healthcare (Blood, Urine, Betadine, Disinfectant): Clean the soiled area with a 20% solution of household bleach and water. Rinse the cleaned area with fresh water after applying the bleach solution.

Difficult Stains (Eye Shadow, Mascara, Lipstick, Crayon, Grease, Mustard): Clean the soiled area with 50% solution of isopropyl (rubbing) alcohol and water. Alternately, use a 25% solution of bleach and water. Rinse the cleaned area with fresh water after applying the alcohol solution (bleach solution).

Ink Stains (Ballpoint Pen, Permanent Marker, Paint): Removal of these stains varies depending on type of ink, color and length of time before cleaning. Rub the marked area with undiluted isopropyl (rubbing) alcohol. Rinse the cleaned area with fresh water promptly after applying the alcohol. Note: To achieve the best results it is recommended to clean the stain immediately.

NOTE: This product may withstand the regular use of commercial cleaners and disinfectants not listed above. It is recommended to test the cleaners on a sample prior to use. Please refer to the Mayer Fabrics web site or contact customer service for approval of unlisted cleaning agents prior to use.

Results may vary under actual conditions.

ADDITIONAL INFORMATION

Custom Capabilities: All patterns can be custom colored. Minimum yardage applies.

Memo Samples: Please keep this card intact. Individual memo samples can be ordered on our website or by contacting customer service.

Fabric Color Matching: Mayer Fabrics always attempts to ship a satisfactory commercial match. Because of industry standard dye lot variation, colors may not match exactly.

Digital Swatch Card Color Matching: Due to color variations on different monitors and color printers, actual swatch colors may vary slightly. Please request a memo sample from Mayer Fabrics to ensure proper color representation.

^**Abrasion:** Multiple factors affect fabric durability and appearance retention, including end-user application and proper maintenance. Wyzenbeek results above 100,000 double rubs have not been shown to be a reliable indicator of increased fabric lifespan.
